PRESS STATEMENT

For some time, the African Football Confederation and its President, has been the subject of various character assassination attacks. These attacks whose stated objective is the removal of the President become more and more unhealthy for African Football.

At the Meeting of the COSAFA Executive Committee in Durban, South Africa yesterday 29th May 2019, the members unanimously expressed their concern and called upon the Membership to express their solidarity and support of the President of CAF in his much-needed mission to restructure our Confederation.

A few weeks before the final phase of the inaugural 24-team CAN 2019 in Egypt, COSAFA invites all Football Stakeholders to unite in support of CAF and its President, for the development of African Football.

ENDS

30th May 2019
