Ball 3: Name of 1st Gp-D (EST)
6. Pot 6 will be an empty pot.

Running Order

Step 1: Pick a ball from the runners-up pot (Pot 1) and show the team drawn.

Step 2: Pick 1 ball from the other pots (pots 2,3,4&5) except the pot that has the team that played in the same group of the runner-up team drawn in step 1 (to avoid having two teams from the same group playing each other).

➤ *Example: if we pick the runner-up (2nd of group A), we take one ball from pot 3, one from pot 4 and one from pot 5 and we eliminate pot 2 (containing the balls of 1st of Group A).*

Step 3: The three picked balls are put in the empty pot (Pot 6).

Step 4: Mix the three balls of Pot 6 before picking one ball to determine the team who will face the runner up drawn in step 1 for the Quarterfinal 1.

Step 5: The same process will be repeated three more times to determine the remaining fixtures (Quarterfinal 2, Quarterfinal 3 & Quarterfinal 4).

- ***According to the regulations: “The runners-up shall play the first leg matches of the quarterfinals at home”.***

2. SEMI-FINALS

One Pot will contain all the quarter finals as follow: QF1 – QF2 – QF3 – QF4

Step 1: The first 2 balls drawn will play each other in SF1. The ball drawn first play the first match at home and the ball drawn second play the return match at home.

Step 2: The last 2 balls in the pot will play each other in SF2. The ball drawn first play the first match at home and the ball drawn second play the return match at home.

3. FINAL

The winner of SF1 plays the final against the winner of SF2. SF1 plays the first match at home and SF2 plays the 2nd match at home.
