6. Pot 6 will be an empty pot:

Step 1:

- Pick a ball from the runners-up pot (Pot 1) and show the team drawn.

Step 2:

- Pick 1 ball from the other pots (pots 2,3,4&5) except the pot that has the team that played in the same group of the runner-up team drawn in step 1 (to avoid having two teams from the same group playing each other).

➤ *Example: if we pick the runner-up (2nd of group A), we take one ball from pot 3, one from pot 4 and one from pot 5 and we eliminate pot 2 (containing the balls of 1st of Group A).*

Step 3:

- The picked balls in step 2 are put in the empty pot (Pot 6).

Step 4:

- Mix the three balls of Pot 6 before picking one ball to determine the team who will face the runner up drawn in step 1 for the Quarterfinal 1.

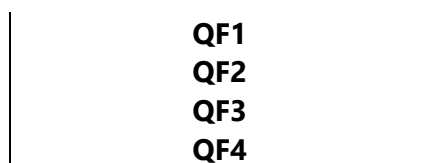

Step 5:

- The same process will be repeated three more times in order to determine the remaining fixtures (Quarterfinal 2, Quarterfinal 3 & Quarterfinal 4) while eliminating the pot of the ball drawn in step 4.

- **According to the regulations: "The runners-up shall play the first leg matches of the quarterfinals at home".**
