# INTRODUCTION

## LANDSCAPE REPORT 2024/25

# Introduction

The Confederation of African Football (CAF) remains steadfast in its dedication to the development and growth of women's football throughout our 54 Member Associations in Africa.

From the expansion and professionalization of women's competitions for players at all ages, to educating coaches, referees and administrators who push the game forward, CAF is focused on sustainable women's football development programs that impact the entire continent. An important component of our approach includes collecting data to assess the current status and tracking changes from year to year.

This second edition of the CAF Women's Football Landscape Report is therefore a valuable tool both for our confederation and our members. As in the inaugural 2022 edition of the report, we collected information from our Member Associations (MAs) for 3 key areas:

DEVELOPMENT & PARTICIPATION

LEAGUES & COMPETITIONS

STRUCTURE & GOVERNANCE

An online survey was developed and distributed to all 54 Member Associations, with 53 completing the survey. The vast majority of survey questions remained the same as in 2022 for consistency of evaluation, with some new questions added based on current CAF initiatives and priorities. These survey responses, as well as historical competition participation information per FIFA and CAF archives, were analyzed and utilized to present the key findings and MA profiles.

The report showcases a comprehensive overview of women's football in CAF in 2024/25, while also highlighting comparisons between 2022 and 2024/25. With multiple positive examples of growth in the 3 key areas, CAF and our MAs have a clear picture of progress made and the areas that still require attention and support. The profile pages allow for an assessment of current status by each MA, as well as comparison amongst peers. For CAF, the data collected via this report helps inform program development and prioritization, while providing points of discussion at the continental, zonal, and MA levels.

**CAF is building upon the positive momentum surrounding women's football through the continued collective work of stakeholders throughout Africa.**

**To everyone contributing to this success: The pitch is yours!**
